

Viessmann Kylmäjärjestelmät takes over Suomen Jääkylmä and FCool and expands into refrigeration service business in Finland

Porvoo, Finland, August 31, 2021 - Viessmann Kylmäjärjestelmät Oy takes over Suomen Jääkylmä Oy and FCool Oy and expands the range of refrigeration services for the Finnish customers. Suomen Jääkylmä and FCool are well-established refrigeration service companies in Finland covering a full range of installation and maintenance services. With the acquisitions and together with the strong local partner network Viessmann strengthens its service and turnkey solutions capabilities. Viessmann's customers will have even stronger assurance of full support from Viessmann over the life cycle of their investments and that they can materialize on the benefits of Viessmann solutions in terms of sustainability and reliability.

"Finland is one the key markets for Viessmann Refrigeration Solutions business area as with our factory in Porvoo and with Viessmann Kylmäjärjestelmät, the sales company, we have already a solid market position and close customer relationships. In the past five years, we have been growing our service and after-sales capabilities across Europe with great success. Now we take a similar step in Finland and continue our strategy implementation together with the skilled teams of Suomen Jääkylmä and FCool", says Frank Winters, CEO of Viessmann Refrigeration Solutions business area.

Founded in 2008, FCool Oy offers a full range of refrigeration solutions and services covering all areas of commercial refrigeration and cold storage construction. The company operates from Kuopio, Eastern part of Finland, and employs 14 refrigeration experts serving retail and industrial companies with their refrigeration solutions.

Suomen Jääkylmä Oy provides commercial and industrial customers with installation and maintenance services for refrigeration plants and cooling equipment for ac-systems. Both small and large scale refrigeration projects are managed by 25 employees and with over 16 years of experience the company has built a solid market position in South and West Finland.

Markku Elomaa, Chairman of the Board of Suomen Jääkylmä Oy, comments: "Together with Viessmann we can grow our service capabilities even further and have a reliable and strategically important partner to be able to fulfill this. Combining both companies' offering and skills will benefit our customers as well as our employees and we can cover a wider customer base and provide full scope solutions from one source."

"Co-operation with Viessmann provides such excellent business opportunities and ensures customer satisfaction. FCool's professional employees are highly motivated and looking forward to new services and projects to come", says Ismo Kokkonen, Managing Director of FCool Oy.

“Together with Suomen Jääkylmä and FCool and with our existing service partner network we will have a stronger local presence in Finland. The full lifecycle services in connection to our product offering will benefit our customers and with the experienced service teams we are able to develop new solutions for the good of the planet and our future generations. We are happy to have FCool and Suomen Jääkylmä teams in the Viessmann family and continue to build on their strong local competence as refrigeration experts” says Mika Aaltonen, Managing Director of Viessmann Kylmäjärjestelmät Oy, Finland.
